1. Need to resize or resize multiple pictures? Click “Open” then drag the photos to be processed to the box below. 2. Once selected, hit “Settings” button for adjusting the size of the pictures. The larger the pictures are, the longer the processing time will be. 3. Once the images are processed, you can either save the output pictures in a folder, or click “Send-to” then select the folder from the drop-down menu and choose the folder you wish to save the output pictures. 4. Once selected, click “Ok”. The program will proceed and produce a folder with the resulting pictures. 5. To view the output pictures in the folder, open the folder in the Files window. Each folder contains subfolders for the corresponding JPGs, GIFs, and PNGs. This tool works perfectly for multiple pictures. This program has the same as all the other image processing applications. Only the output folder and pictures look different. Set up a batch processing for multiple pictures: 1. Load the pictures in a folder. 2. Select one of the pictures and hit “Open”. 3. Drag the selected picture to the box below, where the batch processing button is located. 4. Hit the batch processing button, and wait for the program to start processing the pictures. 5. Once the program has finished, you can choose to save the output pictures in a folder or click “Send-to”, select the folder and choose the folder you wish to save the output pictures. As a designer, Photoshop can come in very handy with cropping and resizing images, and there are some free trial/freemium versions available for download. I've seen it used in production. A: I would recommend and The best part of both are the drag and drop feature, so you don't even have to enter the text manually, and the formats they support. You can also upload directly to a webserver (e.g. imgur.com). Saturday, May 16, 2010 When the Ass was on Fire... About a month ago, I got a horrible call. My mom called to let me know that my dad was in the hospital. A few days later, he was transferred to the intensive care unit at Texas Children's Hospital. His heart had stopped and they were giving him a pacemaker to start it back up again. He was not doing well. His kidneys were failing. He was put on dialysis
